SECTION 5 – FIRE-FIGHTING MEASURES
Suitable Extinguishing Equipment: CO2, dry chemical, alcohol foam. Avoid high-pressure water jet.

Specific Hazards from Combustion: During a fire, smoke may contain the original material in addition to combustion products, which may be irritating. Combustion products may include and are not limited to carbon monoxide and carbon dioxide.

Recommendations: Keep people away. Fight fire from a safe distance with adequate ventilation, or wear positive pressure self-contained breathing apparatus and protective clothing. Using water can cause frothing with increase of fire intensity.

SECTION 6 – ACCIDENTAL RELEASE MEASURES
Personal Precautions: Spills may be slippery. Prevent entry into spill area by unauthorized persons.

Emergency Procedures: Sprinkle inert, non-slip material onto spill if it cannot be cleaned up immediately. Minimize entry of material into sewers and drainage systems.

Containment Procedures: Absorb spill with inert material (earth, clay, commercial absorbent for oil) then place into container for disposal. Do not use combustible material (such as sawdust) as an absorbent.

SECTION 7 – HANDLING AND STORAGE
Precautions: Although this material does not present a significant skin or eye concern, skin and eye contact should be avoided as a general industrial practice. Gloves are not required, but may be desirable for repeated or long term contact. Wearing eye protection is recommended. Wash hands and contaminated skin after handling.

Recommendations: Store in original containers. Keep away from children and adults with dementia
